Product Description

12x21x8 Vertical Roof Metal Carport

The 12x21x8 Vertical Roof Metal Carport is a practical steel-covered shelter designed to provide protection for vehicles, equipment, and general outdoor storage needs. Featuring a vertical roof design, durable steel construction, and professional installation, this carport is well-suited for both residential and commercial applications where reliable covered space is needed.

Best For

- Vehicle protection from sun, rain, and weather exposure
- Residential parking areas
- Boat or small recreational vehicle coverage
- Equipment and utility trailer storage
- General outdoor storage needs
- Commercial property overflow parking

What Fits Inside

With a 12-foot width and 21-foot length, this carport provides covered space suitable for:

- One standard vehicle with additional room for access
- Small boats on trailers
- Utility trailers
- Lawn and landscaping equipment

- Outdoor equipment and storage items

Actual fitment may vary depending on vehicle dimensions and accessories.

Build Quality & Materials

This [steel carport with vertical roof](#) is constructed using steel components designed for long-term durability and everyday use.

- Vertical roof configuration helps channel water and debris off the structure
- 26-gauge steel roofing provides dependable overhead coverage
- 14-gauge steel framing delivers structural support
- Framing upgrades are available if additional specifications are desired
- Rated for 150-170 MPH wind loads as specified
- Engineering plans are available

Customization Options

Customize your building to better suit your property and storage requirements.

Available options include:

- Custom size configurations
- Custom layout options
- More than 15 color choices
- Framing upgrades
- Engineering plans
- [Interactive 3D Builder for design customization](#)
- Permit service availability

Decision Guidance

The 12x21x8 Vertical Roof Metal Carport is a good choice for customers seeking covered protection for a single vehicle, trailer, boat, or outdoor equipment without the need for enclosed storage.

If your primary goal is simple weather protection and open access, this size offers a practical solution. Customers requiring enclosed storage, workshop space, or coverage for multiple vehicles may benefit from exploring larger carports, garages, or metal building options.
