Product Description

12x31x12 RV Cover Metal Carport with Side Panels - Regular Style Steel Structure

The 12x31x12 RV Cover is a [regular-style metal carport](#) designed to provide covered protection for recreational vehicles, trailers, boats, and other large equipment. Featuring a durable steel frame, 26-gauge steel roofing, and 3-foot side panels, this structure offers practical coverage while maintaining easy access. Suitable for both residential and commercial applications, it can also be customized to meet specific size and layout requirements.

Best For

- RV storage and protection
- Travel trailer coverage
- Boat storage
- Utility trailer storage
- Vehicle protection from weather exposure
- Residential properties requiring covered parking
- Commercial equipment storage
- Agricultural equipment coverage

What Fits Inside

With a 12-foot width, 31-foot length, and 12-foot height, this RV cover is designed to accommodate many recreational vehicles, trailers, and large equipment.

Potential uses include:

- One RV or camper trailer
- Boat and trailer combinations within size requirements
- Utility trailers
- Work vehicles
- Lawn and landscape equipment
- Outdoor equipment storage

The open-front design allows for convenient entry and exit while the extended length provides additional covered space for storage needs.

Build Quality & Materials

This RV cover is built using steel components designed for dependable outdoor use.

Key construction features include:

- 26-gauge steel roofing panels
- 14-gauge steel framing
- Frame upgrade options available
- Regular-style roof design
- 150-170 MPH wind load rating
- 3-foot side panels for additional coverage
- Engineering plans available upon request

The steel roof and framing system create a durable structure suitable for a variety of storage and vehicle protection applications.

Customization Options

This building offers several customization opportunities to help match your property and storage requirements.

Available options include:

- Custom sizes available
- Custom layouts available
- More than 15 color choices
- Framing upgrades available
- Engineering plans available
- Permit service available

Customers can also explore additional configuration possibilities using [Handi-House's 3D Builder tool](#).

Decision Guidance

The 12x31x12 RV Cover is a practical choice for buyers who need covered protection for a single RV, camper, boat, trailer, or large vehicle. The 12-foot height provides clearance for many recreational vehicles while the 31-foot length accommodates longer equipment and trailers.

If you need additional storage space alongside your vehicle or require [enclosed storage](#) features, a larger structure or garage-style building may be worth considering. For smaller vehicles or limited site space, a more compact carport may better fit your property.
