Product Description

12x46x12 Regular Style RV Carport Cover

The 12x46x12 Regular Style RV Carport Cover is designed to provide covered protection for RVs, motorhomes, trailers, vehicles, and other equipment. With a long 46-foot roof span, durable steel construction, and an open-sided design, this carport offers a practical solution for residential or commercial property owners seeking reliable overhead coverage while maintaining easy access.

Best For

- RV and motorhome coverage
- Travel trailer storage
- Boat storage on trailers
- Vehicle protection from sun and weather exposure
- Equipment and utility trailer coverage
- Residential properties needing additional covered parking
- Commercial properties requiring open covered storage

What Fits Inside

With a 12-foot width, 46-foot length, and 12-foot height, this RV carport is designed to accommodate longer vehicles and equipment that require substantial covered space.

Typical uses may include:

- One RV or motorhome
- Travel trailers and campers
- Multiple smaller vehicles parked in tandem
- Utility trailers and recreational equipment
- Lawn and landscape equipment storage
- Covered parking for work vehicles

The extended length also provides flexibility for organizing equipment or creating additional covered storage space beneath the structure.

Build Quality & Materials

This [RV carport](#) is built using steel components designed for long-term outdoor use.

Roofing

- 26-gauge steel roofing panels
- Regular style roof design
- Durable steel construction for overhead coverage

Framing

- 14-gauge steel framing
- Framing upgrade options available
- Engineered steel structure

Wind Rating

- Rated for approximately 150-170 MPH wind loads

Engineering

- Engineering plans available
- Permit service available

Customization Options

This building can be configured to better suit your property and usage requirements.

Available options include:

- Custom size adjustments
- Custom layout options
- Framing upgrades
- More than 15 color choices
- Engineering plans

Decision Guidance

A 12x46x12 RV carport is a practical choice for property owners who need extended covered space for RVs, trailers, or other long vehicles. The 46-foot length provides significant coverage while maintaining the accessibility of an open-sided structure.

If you require enclosed storage, added security, or workshop functionality, you may want to [explore metal garage or workshop options](#). If your storage needs are limited to smaller vehicles, a shorter carport size may be sufficient.
