Product Description

28x51x14 Utility Metal Garage with Three Roll-Up Doors

The 28x51x14 Utility Garage is a spacious steel building designed for residential or commercial storage, vehicle protection, equipment organization, and workspace needs. Featuring three large roll-up doors, vertical steel siding, and a tall 14-foot structure, this garage provides flexible access and ample interior space while maintaining a clean, durable steel construction.

Best For

- Multi-vehicle storage
- Trucks, trailers, and equipment storage
- Commercial vehicle parking
- Workshop and hobby space
- Agricultural equipment storage
- Residential property storage needs
- Business inventory and equipment organization

What Fits Inside

With a 28-foot width and 51-foot length, this utility garage offers substantial interior space for a variety of storage and workspace applications.

Potential uses include:

- Multiple vehicles parked simultaneously
- Trucks, utility trailers, or work vehicles
- Lawn and landscaping equipment
- Agricultural tools and machinery
- Dedicated workshop areas alongside storage space
- Mixed-use storage and workspace configurations

The combination of two 12x12 roll-up doors and one 12x10 roll-up door provides convenient access for larger vehicles and equipment while allowing flexible traffic flow throughout the building.

Build Quality & Materials

This [utility garage](#) is constructed with durable steel components designed for long-term performance.

Key construction features include:

- 26-gauge steel roofing
- 14-gauge steel framing
- Vertical roof and wall panels
- All vertical steel siding
- Two-tone color design
- Wind load rating of 150-170 MPH
- Engineering plans available

The vertical panel design helps promote efficient water runoff while providing a clean, professional appearance.

Customization Options

This building can be configured to better match your property and usage requirements.

Available options include:

- Custom size adjustments
- [3D Custom layout configurations](#)
- 15+ color choices
- Two-tone color combinations
- Framing upgrades available
- Engineering plans available
- Permit service available

Decision Guidance

The 28x51x14 Utility Garage is a strong option for buyers who need significant storage capacity, multiple vehicle access points, or a combination of storage and workspace under one roof.

This size may be a good fit if you need:

- Storage for multiple vehicles
- Space for larger trucks or trailers
- Equipment and inventory storage
- Workshop space alongside vehicle storage

If your needs are limited to a single vehicle or basic storage, a smaller garage may provide sufficient space. Buyers planning for extensive equipment storage or larger commercial operations may wish to explore larger building footprints.
