Product Description

24x26x11 Regular Style Metal Carport

The 24x26x11 Regular Style Metal Carport is a practical steel-covered structure designed to provide reliable protection for vehicles, equipment, and outdoor belongings. With a spacious footprint and durable steel construction, this carport is well-suited for both residential and commercial applications. Its regular roof design offers a cost-effective solution for everyday covered storage needs.

Best For

- Vehicle protection and covered parking
- Residential property storage needs
- Outdoor equipment storage
- Recreational vehicle or trailer coverage
- Farm and ranch equipment protection
- Light-duty commercial applications
- Multi-purpose covered outdoor space

What Fits Inside

With 24 feet of width and 26 feet of length, this metal carport offers ample covered space for a variety of uses. Potential uses include:

- Multiple passenger vehicles
- Pickup trucks and SUVs
- Utility trailers
- Lawn and landscaping equipment
- Small boats on trailers
- ATVs and recreational equipment
- General outdoor storage needs

The open design also allows for flexible organization and easy access from multiple sides.

Build Quality & Materials

Built with steel components, this [metal carport](#) is designed to provide dependable coverage while maintaining a straightforward and economical design.

Key construction features include:

- 26-gauge steel roofing panels
- 14-gauge steel framing
- Framing upgrade options available
- Wind load rating of 150-170 MPH
- Regular roof style
- Engineering plans available upon request

The steel roof helps protect stored items from the elements, while the steel frame provides structural support for everyday residential and commercial use.

Customization Options

This carport can be customized to better suit your property and storage requirements.

Available options include:

- Custom sizes available
- Custom layout configurations available
- Framing upgrades available
- Engineering plans available
- More than 15 color options
- Permit service available

Customers can also explore available configurations and design options using [Handi-House's 3D Builder tool](#).

Availability may vary based on service area. Contact Handi-House for [delivery and installation](#) details specific to your location.

Decision Guidance

The 24x26x11 Regular Style Metal Carport is a good choice for property owners who need substantial covered space for vehicle protection, equipment storage, or general outdoor coverage without fully enclosing the structure.

This size may be suitable if you need:

- Covered parking for multiple vehicles
- Storage space for trailers or outdoor equipment
- A versatile residential or commercial shelter

If you require enclosed storage, workshop functionality, or additional security, you may want to [explore metal garages](#) or enclosed steel buildings within the Handi-House product lineup.
