Product Description

12x21x7 Single Car Metal Carport

The 12x21x7 Single Car Metal Carport is a compact and practical steel structure designed to provide covered protection for vehicles, outdoor equipment, and everyday storage needs. Its regular roof design and durable steel construction make it an excellent option for homeowners seeking a reliable covered parking solution without the footprint of a larger structure.

Best For

- Single vehicle protection
- Car and compact SUV coverage
- Residential parking areas
- Motorcycle storage
- Lawn and garden equipment storage
- Small utility trailer coverage
- General outdoor storage

What Fits Inside

With 12 feet of width, 21 feet of length, and 7 feet of height, this carport is ideal for everyday residential use. Potential uses include:

- One passenger vehicle
- Compact and midsize cars
- Small SUVs
- Motorcycles
- Lawn mowers and landscaping equipment
- Small utility trailers
- Seasonal outdoor storage

The open-sided design allows for convenient access while maintaining covered protection for vehicles and equipment.

Build Quality & Materials

Built with durable steel components, this [metal carport](#) is designed to provide dependable overhead coverage for residential and light commercial applications.

Construction features include:

- 26-gauge steel roofing panels
- 14-gauge steel framing
- Optional framing upgrades available
- 150-170 MPH wind load rating
- Regular roof style
- Engineering plans available

The steel roofing helps protect stored items from weather exposure, while the steel framing provides structural stability and long-term durability.

Customization Options

Handi-House offers multiple customization options to help tailor the building to your property and storage needs.

Available options include:

- Custom sizes available
- Custom layouts available
- Framing upgrades available
- Engineering plans available
- More than 15 color options
- Permit service available

Customers can also explore design possibilities using the [Handi-House 3D Builder](#) before placing an order.

Decision Guidance

The 12x21x7 Single Car Metal Carport is a good choice for homeowners who need compact covered parking or storage space without committing to a larger structure.

This size may be appropriate if you need:

- Covered parking for one vehicle
- Protection for a car, motorcycle, or small SUV
- Storage for lawn and garden equipment
- A compact solution for residential properties

If you need coverage for multiple vehicles, taller equipment, or recreational vehicles, you may want to consider a wider or taller carport model from the Handi-House lineup.
