Product Description

12x21 Regular Style Metal Carport

Protect your vehicle and outdoor equipment with the 12x21 Regular Style Metal Carport from [Handi-House](#). Designed for residential and light commercial applications, this prefabricated steel carport provides reliable overhead coverage for cars, trucks, trailers, and equipment while offering durable steel construction. With multiple customization options, it's a practical solution for property owners looking for a dependable covered parking space.

Best For

- Single car garage
- Pickup truck or SUV coverage
- Boat or small trailer storage
- Lawn equipment storage
- Residential driveways
- Light commercial parking
- Farm and ranch equipment protection

What Fits Inside

With a 12-foot width and 21-foot roof length, this metal carport is well suited for:

- One standard passenger vehicle
- Most SUVs and pickup trucks
- Small utility trailers
- Riding lawn mowers and outdoor equipment
- Additional space for storing tools or seasonal items along the sides, depending on vehicle size

The open-sided design allows for easy vehicle access while providing overhead protection from the elements.

Build Quality & Materials

Built with quality steel components, this [One Car Carport](#) is designed to provide dependable overhead coverage.

- 26-gauge steel roofing offers durable roof protection.
- 14-gauge steel framing provides structural support, with framing upgrades available if desired.
- Rated for 150-170 MPH wind loads where applicable.
- The regular roof style delivers a traditional appearance suitable for residential and commercial properties.
- Engineering plans are available for projects that require permitting or documentation.

Customization Options

Customize your metal carport to better match your property and storage needs.

Available options include:

- Custom sizes
- Custom layouts
- More than 15 color choices
- 14-gauge frame upgrade options
- Engineering plans
- [Interactive Handi House 3D Builder](#)
- Permit service available
