### Product Description

## 22x21x7 2 Car Metal Carport

The 22x21x7 2 car carport is a practical steel structure designed to provide dependable overhead protection for two vehicles. Its regular roof style makes it a great option for homeowners looking to shield cars, trucks, or outdoor equipment from the elements while maintaining an open and accessible design. With customizable sizing, multiple color choices, and professional installation included, this carport is suitable for a variety of residential and commercial applications.

### Best For

- Protecting two passenger vehicles
- Residential driveway coverage
- Outdoor equipment storage
- Boat or utility trailer coverage (size permitting)
- Commercial vehicle parking
- Creating a covered outdoor workspace

### What Fits Inside

With a width of 22 feet and a length of 21 feet, this 2 car carport is well suited for parking two standard-sized vehicles side by side while allowing convenient entry and exit.

The open-sided design also provides flexibility for storing lawn equipment, small trailers, motorcycles, or seasonal outdoor items. Depending on your storage needs, the covered space can also be used as a sheltered work area or loading zone.

### Build Quality & Materials

This steel carport is built with quality materials designed to provide dependable structural support.

- 26-gauge steel roofing offers durable overhead coverage.
- 14-gauge steel framing provides a strong structural foundation.
- Wind rating of approximately 150-170 MPH (depending on configuration and local requirements).

- Regular roof style delivers a clean, traditional appearance.
- Engineering plans are available when required for permitting or project planning.

## Customization Options

Customize your building to better suit your property and requirements with available options, including:

- Custom building sizes
- Custom layout configurations
- More than 15 color choices
- Engineering plans available
- Optional 14-gauge framing upgrades

Whether you need a different footprint or want a color that complements your home or business, Handi-House offers customization options to help meet your project goals.

## Delivery & Installation

Handi-House makes purchasing your steel building simple by offering:

- Factory-direct pricing
- Free delivery
- Free professional installation
- Permit service available
- Access to an easy-to-use [3D Builder for exploring customization](#) options before ordering

## Choosing the Right Size

A 22x21 2 car carport is a great choice for homeowners who want covered parking for two standard vehicles without fully enclosing the structure. It also works well for protecting outdoor equipment and creating a covered work area.

If you need enclosed storage, additional security, or space for a workshop, you may want to [explore a metal garage](#) instead. If your primary goal is open vehicle protection with easy access, this carport offers an excellent solution.

Handi-House offers a wide selection of both [carports and garages which one you need](#), making it easy to choose the building that best fits your property and storage needs.

## Request a Quote
