### Product Description

## 10 x 10 -

The 10x10 2 Run Dog Kennel with Storage is a prefabricated steel kennel designed for pet owners, breeders, and small animal care facilities that need secure outdoor housing with convenient storage. Featuring two separate kennel runs, a dedicated storage room, durable Galvalume steel roofing, and customizable layout options, this building provides a practical solution for housing dogs while keeping supplies organized.

### Best For

- Housing two dogs in separate kennel runs.
- Small breeding or boarding operations.
- Homeowners looking for a secure outdoor dog kennel.
- Storing dog food, leashes, cleaning supplies, and equipment in the attached storage room.
- Rural, residential, or agricultural properties requiring dedicated pet housing.

### What Fits Inside

A 10x10 double run kennel offers dedicated space for two separate dog runs while incorporating a convenient storage area for everyday essentials. The storage room helps keep food containers, cleaning tools, bedding, toys, and other pet supplies protected and organized without requiring additional outdoor storage.

This layout works well for pet owners who want separate spaces for multiple dogs while keeping frequently used supplies within easy reach.

### Build Quality & Materials

Built for outdoor use, this kennel combines durable steel roofing with practical design features that support everyday animal care.

- **Galvalume Steel Roofing** provides corrosion-resistant protection against rain and sun exposure.
- **150-170 MPH Wind Load Rating** offers structural performance designed for areas with higher wind requirements.
- **Cedar Stain Finish** gives the building a warm, attractive appearance while complementing many

residential and rural properties.

- **Two Windows** provide natural light and improved ventilation within the enclosed storage space.
- **Prefabricated Steel Construction** allows for efficient installation while maintaining a durable outdoor structure.

## Customization Options

## Is This the Right Dog Kennel for You?

The 10x10 2 Run Dog Kennel with Storage is a practical choice for pet owners who need separate housing for two dogs while keeping supplies organized in one structure. The included storage room helps reduce clutter by providing dedicated space for food, equipment, and maintenance items.

If you expect to house additional dogs or require larger exercise areas, a larger multi-run kennel may better suit your needs. If your requirements change, Handi-House also offers custom sizes and layouts to help create a kennel that fits your property.
