Product Description

Portable Building 10x20 High Loft Barn Playhouse

The Handi-House 10x20 High Loft Barn Playhouse Portable Building offers a versatile solution for homeowners looking for extra storage or a flexible backyard space. Featuring a high loft barn design, covered front porch, and durable construction, this portable building can be used for storing household items, creating a hobby space, or serving as a playhouse, she shed, or personal retreat. Available in stock or built to your preferred colors at the same price.

Best For

- Backyard storage for seasonal and household items
- Lawn and garden equipment storage
- Outdoor recreation and sports equipment
- Pool supplies and patio accessories
- Playhouse or family recreation space
- She shed or hobby room
- Personal workspace or craft area
- Multi-purpose portable building for residential properties

What Fits Inside

With 200 square feet of interior space, this 10x20 portable building provides flexibility for a variety of storage and lifestyle needs.

Depending on how you organize the interior, it can comfortably accommodate:

- Lawn mowers and garden equipment

- Shelving for tools and storage bins
- Outdoor furniture during the off-season
- Bicycles, kayaks, and recreational gear
- Holiday decorations and household storage
- Hobby or crafting supplies
- Workspace furniture for personal projects

The covered front porch also adds usable outdoor space, making the building more inviting for recreational or hobby use while providing a sheltered entrance.

Build Quality & Materials

Built with quality materials and practical construction features, this [pre-made portable building](#) is designed for long-term residential use.

Standard construction includes:

- Pressure-treated wood skid base for structural support
- Pressure-treated flooring to help extend floor life
- Formed ridge cap integrated into the structure for improved roof security
- Ridge cap design that promotes better roof ventilation and energy efficiency
- Quality materials selected for dependable performance
- Built by Handi-House in the southern United States

The High Loft Barn roof design also provides additional overhead storage potential while giving the building its distinctive appearance.

Customization Options

Personalize your portable building with available options, including:

- Custom exterior color choices
- Door upgrades available through your dealer
- Built custom at the same price as in-stock models (availability may vary)

Decision Guidance

The 10x20 High Loft Barn Playhouse Portable Building is a great choice if you need generous storage space while also wanting a building that can serve multiple purposes. Its combination of a spacious interior, loft-style roofline, and covered porch makes it well suited for homeowners looking beyond basic storage.

If your primary need is storing only a few lawn tools or seasonal items, a smaller portable building may be sufficient. However, if you want room for storage, hobbies, recreation, or a dedicated backyard retreat, this 10x20 model offers additional flexibility.
